

WHO WE ARE

We do things better

We are a company with an excellent reputation and growing while we provide HVAC (heating, ventilating, and air conditioning), Electrical & Electronic Equipment, VFD (variable frequency drives), PLC/ (Fabrication and Plumbing Works.

Designing, planning, and executing a project is often a long and stressful process. No matter how experienced you are, the mere words "design project" are enough to instill fear in you. We understand your requirement and want to help make this process easier on you. We offer end to end services for medium - large scale projects in areas of Acoustic, Interior, Electrical, and Fire Protection. Our skilled workforce can help you achieve your goals with our wealth of experience across many industries.

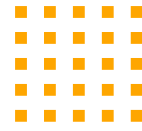

We have the capability to offer a complete range of services from design and drafting to the construction, delivery and installation of all types of equipment. We provide our clients with quality products and services at competitive prices. We provoke change by providing a platform for companies to do business in ways that are socially and environmentally responsible. We help corporations implement sustainable practices by offering services such as energy Saving, High Quality, Longer life, and more. It is our responsibility to make sure that we are contributing to a Good quality project delivery. We believe our responsibility to prevent breakdwons is compatible with successful business objectives. You've heard the old adage "an ounce of prevention is worth a pound of cure." If you want to prevent costly production losses and delays, you need to keep your operations running smoothly without any unexpected interruptions. We're the company that specializes in regular facilities reviews. And we're here to help.

ABOUT US

We do things better

Mission

To blend ancient architectural styles along with futuristic infrastructural innovations in contemporary construction creates the best. Bringing forth the best of creativity. Welcome to the future.

Vision

We are a professional services company that provides high-quality, cost-effective solutions to our customers. As a trusted partner, we offer timely and complete solutions through our dedicated team of project managers, engineers and designers.

Values

When it comes to your project, you deserve the very best. We believe in professional excellence, dedication, and trust.

OUR SERVICES

We are one of the most reliable and committed HVAC , Electrical & Electronic Equipment servicing VFD / PLC Synchronization Industrial / Residential electrical works, Signage works , Welding , Fabrication , Plumbing & Painting works. professionally managed by a team of experienced engineers.

- Electrical Project and Service & Installation .
- Complete HVAC System.
- Fabrication & Machining work, Tig welding, Co2 Welding High quality work.
- Security system wiring, Network system & Camera System wiring etc.
- Fire Protection, providing sprinkler wet riser, Hydrant to Commercial Building and approval from Govt. Dept.
- Painting and civil interior works.

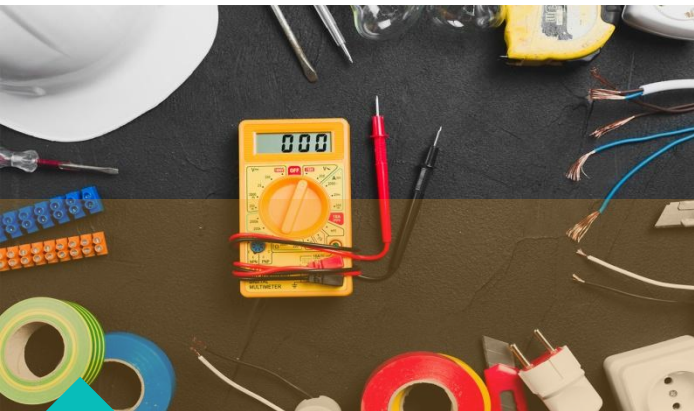

Electrical Project & Service

Low voltage distribution system consists of a combination of several electrical components to provide the required power to the end user.

- LT Panel & Main Distribution Boards (MDB)
- Secondary Distribution Boards (SDB)
- LDB, PDB & ELDB
- Cables, Trays & Trunking
- Copper & GI Earthing
- Lighting Fixtures
- Switched Sockets

HVAC

The main purpose of design and implementation of a Heating, Ventilation, and Air-Conditioning (HVAC) system is to help maintain good indoor air quality through adequate ventilation with filtration and provide thermal comfort. HVAC systems are among the largest energy consumers in any premise. The choice and design of the HVAC system makes the difference in any living and working environment. This is why we strive to design & execute quality systems that are cost-competitive while successfully providing an appropriate quality air, lower energy costs, and easier maintenance.

- Ventilation and air filtration
- Smoke ventilation and management
- Chilled water systems (Air cooled / Water cooled)
- Central DX / VRV systems
- Hi wall units and its Copper & control wiring.
- Variable air volume
- Ducting and insulation
- Grilles, Diffusers, Disc valves and collar dampers
- Motorised fire dampers
- Starter panels & VFD's
- Fire Interlocking between HVAC

Fire Protection

Our purpose behind our Fire protection practice is based on three vital goals: The continuity of operations, property protection and last but not least life safety. SSD team intend in their engineering of fire protection systems to prevent the interruption of critical services necessary for the public welfare and to prevent area wide conflagrations, all with life safety as the ultimate goal. We specialized in the following firefighting System according to NFPA Standard:

- Sprinkler system
- Foam system
- Hydrant system

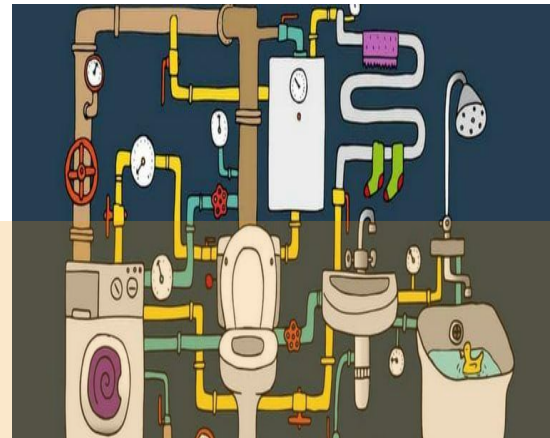

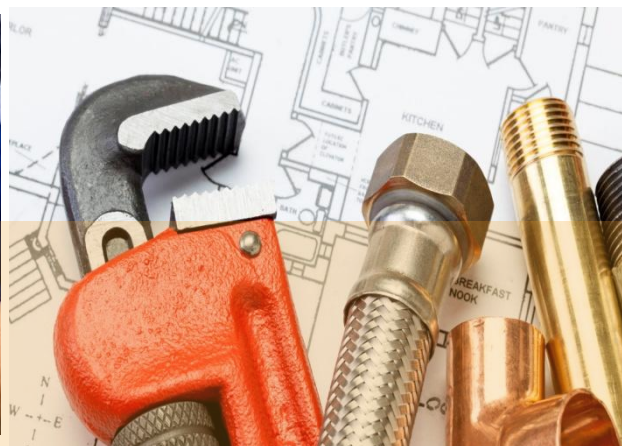

Plumbing

The plumbing industry is a basic and substantial part of every developed economy due to the need for clean water, and proper collection and transport of wastes. Given the importance of water in our lives, our designers and installers are extremely careful in the treatment of a resource . Team SSD puts lots of emphasis to ensure we provide a plumbing where pipes, drains fittings, valves, valve assemblies, and devices we install in a building for the distribution of water for drinking, heating and washing, and the removal of waterborne wastes are well sized and securely installed.

- Sanitary and drainage systems
- Gas systems
- Irrigation systems and controls
- Water distributions
- Compressed air systems
- Fountains and pools
- Kitchen and laundry

Fabrication & Machining work

We provide premium quality Roofing Shed Fabrication Service in which are technically advanced and having elegant look. Our Fabrications are highly appreciated by our clients as they finely finished and reliable. Our Shed Fabrication are widely used in residential as well as in commercial buildings and known for their dimensionally accuracy.

Features:

Fine finishing

Dimensional accuracy

Durability
